Terminal Disclaimer

The terminal disclaimer filed on 5/7/08 and disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application Number 10/538,682 have been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The structures of the organohydrogensilicon compounds as claimed by Applicants in independent claim 1 are believed

Art Unit: 1796

to be novel and unobvious over the prior art. The previously applied prior art references (Nakayoshi et al. and Asch et al.) have been effectively overcome by Applicant's amendments. Specifically, neither Nakayoshi et al. nor Asch et al., when taken alone or in combination, teach or suggest the addition of acidic cyclosiloxane ring opening polymerization catalysts, as required by instant claim 1. The catalysts employed in Asch et al. and Nakayoshi et al. are metal-mediated hydrosilylation catalysts and are not capable of serving as acidic cyclosiloxane ring opening polymerization catalysts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
